The following are important instructions you should follow in preparation for your procedure.

- 1. Please finish your dinner by 7:00 pm.
- 2. You SHOULD NOT HAVE ANYTHING to eat or drink after 12:00 midnight on the night before your appointment, unless otherwise directed.
- 3. If your appointment is in the afternoon, you SHOULD NOT EAT OR DRINK at least EIGHT HOURS prior to the procedure.

IMPORTANT

- If you are on INSULIN or ORAL DIABETES MEDICATION, PLAVIX, or COUMADIN, or any other blood thinners, please inform Dr. Shim and obtain specific instructions with regard to these medications.
 Following medications should be stopped prior to the procedure as instructed below: Plavix – must be stopped 5 days prior to the procedure.
 Coumadin - must be stopped 4 days prior to the procedure.
 Pradaxa – must be stopped 48 hours prior to the procedure.
 Aspirin and any other blood thinner – must be stopped 1 week prior to the procedure.
- 2. If you take medications in the morning for HYPERTENSION OR HEART DISEASE, you should take your medication at least 2 hours prior to your scheduled appointment.
- **3.** Unless directed by a physician, DO NOT TAKE any iron tablets, aspirin or medication, which contains aspirin (such as Alka-Seltzer); or nonsteroidal, anti-inflammatory medications (such as Motrin, Advil, or Indocin), for 5 days prior to the procedure. If you need medication for pain, you may take Tylenol.

If you CANNOT keep your appointment or have any questions regarding your procedure or preparation, please call Janet at (212) 535-5020.

Be sure to arrive on time for your appointment. Because you will receive intravenous sedation, you should have someone to escort you home. Your upper endoscopy will take place on:
